

KINGDOM OF JEFF FARR IS PROBE SUBJECT

Political Corruption in Colorado Is Aired

TRIALS ARE MOCKERIES?

Walenburg Is Jailer - Farmer Springs Detention in His Testimony

WASHINGTON, March 3. Sheriff left Farr sat on a bench in the district court room here today and heard Huerta county described as "the kingdom of Jeff Farr." Political conditions in southern Colorado were the target at which the artillery of the United Mine Workers mainly aimed before the congressional committee investigating the coal miners' strike.

What has been of Governor Carranza's party? asked a member of the committee. E. P. Connelley, attorney for the United Mine Workers, was the progressive candidate for governor in 1912.

Do you think persons in this country have been deprived of constitutional rights? asked Mr. Benthall.

When the witness used the term "the kingdom of Jeff Farr," Judge J. C. Northcutt, for the operators, asked: Did you ever hear any body but yourself so characterize Huerta county?

Following Connelley's testimony, Robert Mitchell told the committee, "Jeff Farr told me in the presence of a witness that he had run crooked elections in Huerta county. He made the statement before the election four years ago, and added that he was going to run that election straight."

Malloy Bell, he had awaited in exchange took the stand to testify that Louis Miller, a deputy sheriff, took his law James Brewster, called (Continued on Page Three)

GREELEY ATTACKS THE GRAIN TRUST

URGES THAT CONGRESS INVESTIGATE

Chicago Board of Trade Controls Wheat Market of the World, He Asserts

CHICAGO, March 3. Speaking for the representative Minahan resolution to authorize an investigation of the charges that a monopoly existed within the grain exchanges at Chicago, Duluth and Minneapolis, founded upon warehouse operations and future trading, Samuel H. Greeley today characterized the Chicago board of trade as a "giant of fictitious wheat transactions," and the weapon of a price-controlling monopoly.

Through memberships on the Chicago board of control of the storage of grain the warehouse trust, he declared, had built up an organization "which controls the wheat prices of the world more than any other agency except war scares and financial panics."

Mr. Greeley read into the record a recent change in the rules by the board removing certain penalties prescribed against warehouse members.

Public at Their Mercy. "It is recognized," he asserted, "that 50 per cent at least of all cash grain which has entered public storage for many years has been controlled by the illegally operating warehouse proprietors."

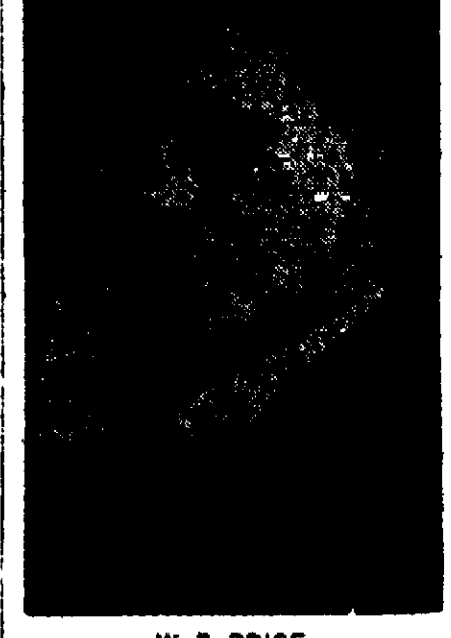

Following Connelley's testimony, Robert Mitchell told the committee, "Jeff Farr told me in the presence of a witness that he had run crooked elections in Huerta county. He made the statement before the election four years ago, and added that he was going to run that election straight."

Malloy Bell, he had awaited in exchange took the stand to testify that Louis Miller, a deputy sheriff, took his law James Brewster, called (Continued on Page Three)

W. B. PRICE WINS IN B. P. O. E. ELECTION

Beats Dr. L. R. Allen in Close Race for Exalted Ruler—Other Elections

W. B. Price was elected exalted ruler of the local lodge No. 309, B. P. O. E., at the annual election officers held last night at the Elks home.

Dr. L. R. Allen for the office of secretary. Other officers were elected without opposition. Secretary Stubbs, Treasurer H. C. Loesch, Tyler J. H. Fink and trustee Mark Rafferty were re-elected. The officers for the year are as follows:

GILL AGAIN ELECTED

Supported By Former Enemies and Opposed By His Former Friends

SEATTLE Wash., March 3.—Hiram C. Gill who was elected mayor of Seattle in 1910, recalled in 1911, just after the women of Washington had been enfranchised, and defeated in 1912, was elected mayor of Seattle today by a majority of between 5,000 and 10,000, defeating James D. Trenholme.

Gill ran today on a platform of strict enforcement of the laws. Four years ago he was elected on an "open town" platform and his recall resulted from his alleged toleration of vice.

Forty precincts complete out of 231 in the city gave Gill 4,954. Trenholme 2,855.

Publication of the circumstances of Trenholme's selection caused a separation and all efforts to rally the women and the reform forces as was done two and three years ago came to naught for the issue raised by Gill leaders was corporation domination.

Gill Financed Own Campaign. Gill was the last of the nine candidates for mayor to file his declaration, and in making his announcement he said he entered the field because no competent man had been presented.

WOMEN THROW DOWN GAUNTLET TO DEMOCRATS

Will Join Forces With Party That Recognizes Them In 1916 Election

BOTH SIDES ARE PRESENTED Suffragists Are Divided on Best Means of Obtaining the Ballot

WASHINGTON, March 3.—All phases of the woman suffrage question were presented to the House judiciary committee today, accompanied by cheers, jeers, hisses and applause.

Deserting the sentimental phases of the suffrage argument, Mrs. Crystal Eastman Benedict and Mrs. Mary Beard, New York lawyers, threw down the gauntlet to the Democratic party in no uncertain terms, warning the committee that the political worth of the 4,000,000 women in suffrage states would be visited upon the party unless favorable consideration was given the constitutional amendment for woman suffrage.

Anti-suffragists told the committee that woman suffrage would be harmful "not only to women, but to the country." And at the conclusion of the hearings, Dr. Mary Walker, treasurer and silk-hatted, presented to the committee what she called "the crowning constitutional argument" to show that woman already have the right to vote under the constitution.

In the more lively debate on the suffrage amendment, the committee was divided. Mrs. Antonietta Funk, Mrs. Modell McCormick and Mrs. William Kent, representing the National Woman Suffrage association, urged that if the committee would not support the proposed amendment, it was an amendment to allow the suffrage question to be decided by the states.

Woman Asks Clemency for Husband's Slaying

Says Crime Is Disease

LOS ANGELES, March 3.—Ralph Farrise, the youthful boxer, held bandit command to be hanged next Friday, obtained an advocate of mercy in his behalf today in the person of Mrs. Edna Gerzon Montague, widow of Horace Montague, the railroad official whom Farrise murdered in a train holdup.

CUTLER ACADEMY TO BE DISCONTINUED THIS YEAR

Colorado College Preparatory School to Be Occupied by Engineering Department After Year Closes

Cutler academy, the preparatory school for Colorado college, will be discontinued after the present academic year, which terminates in June, according to an announcement made yesterday by the board of trustees of the college.

The maintenance of Cutler academy has for some time been a hard task for the college. The engineering and forestry schools have been expensive and the newly established department of business administration and banking has made heavy demands on the resources of the institution.

GOETHALS HAILED AS 'GREATEST ENGINEER'

Presented Medal for Canal Achievement; Pledges by President Wilson

WASHINGTON, March 3.—Washington paid tribute tonight to Col. George Washington Goethals, builder of the Panama canal. The occasion was the annual banquet of the National Geographic society, with Colonel Goethals present as the guest of honor and to receive from President Wilson a special gold medal awarded him by the society in recognition of his achievement.

Secretary Bryan was toastmaster and gathered about the banquet table with the distinguished scientists of the society were President Wilson and his cabinet, justices of the supreme court, members of the diplomatic corps, high officers of the army and navy, leaders in both houses of congress and other notable figures in the life of the national capital.

During the evening Julius J. Jusserand, the French ambassador and dean of the diplomatic corps, was formerly notified of his election to honorary membership in the society.

Striking Scene Presented. The banquet hall presented a striking scene. At one end raised high above the table the words "Atlantic-Goethals-Pacific" blazed in brilliant electric letters as all other lights were extinguished.

BISHOP BOWMAN DIES AT AGE 97

Known as "Grand Old Man of the Faith"; Noted Methodist Divine

ORANGE, N. J., March 3.—Bishop Thomas Bowman, formerly president of De Pauw university, died here today at the home of his daughter. He was 97 years old.

Bishop Bowman was the pastor of Methodistism in America. No other bishop in the service of that church ever reached such an advanced age. He had been affectionately known for a generation as the grand old man of the faith.

It was during this period that he served for a year as chaplain of the United States senate and he thus became acquainted with Abraham Lincoln. He early became suspicious of attempts to assassinate Lincoln and was one of the first to warn him.

His closing years were spent at Orange with his daughter Mrs. R. D. Caldwell, wife of the president of the Wells Fargo Express company. Besides Mrs. Caldwell, the bishop is survived by the following children:

HIS OWN AFFAIR, SAYS OPERATOR

MAC NAUGHTON DENOUNCES MINERS' UNION

Would Not Allow President of the U. S. Arbitrate Strike Differences

HOUGHTON, Mich., March 3.—James MacNaughton, general manager of the Calumet and Hecla Mining company and its subsidiaries, denounced the Western Federation of Miners and its principles today before the congressional committee investigating the copper strike.

Chairman Taylor asked MacNaughton if it was his position that the companies would not permit the governor of Michigan or the president of the United States or any other "high-minded persons" to attempt to settle the trouble.

MacNaughton said his attitude did not indicate lack of confidence in the officials named, but "I know this is my pocketbook and I am not going to allow you or others to arbitrate to decide whose pocketbook it is."

MacNaughton was vigorously cross-examined by C. N. Hill of counsel for the federation.

Do you think Allan Hutton has been dispensing a "gospel of hate" in this community? began Hill.

NEPHEW TO CONTEST MRS. BRYANT'S WILL

J. T. Hatch Here From Texas to Fight for Part of \$35,000 Estate

J. T. Hatch a young man of Kaufman, Tex., has come to Colorado Springs to contest in the courts for an estate of about \$35,000 left by his aunt the late Livia H. Bryant.

Ten thousand dollars to Tulane university at New Orleans, \$5,000 to Charity hospital at New Orleans, \$1,000 to Livia Zachary, Miss Ark. \$1,000 to Sally Hatch, Secy. Tex. \$500 to Mrs. Robert P. Hunter, Alexandria, La. \$500 to Carrie Moore, New Orleans, \$1,250 to R. P. Hunter, Alexandria, La. \$500 to T. M. C. A. Colorado Springs, \$500 to Bath-Hill hospital, Colorado Springs, \$500 to Glockner sanatorium, Colorado Springs, \$500 to each of the executors.

The executor of the estate named in the will were Mrs. P. B. Cooper and S. J. Giles, the latter of this city. Mr. Giles has declined to act as executor and an executorship in New Orleans who was a part beneficiary in the will has declined to act. This leaves the estate without legally constituted administration. Hatch through his attorney is expected to appeal today to the county court for the appointment of an administrator.

CARRANZA AT LASI ACCEDES TO U. S. NOTE

Appoints Commission to Investigate the Benton Incident

Relieved By Attitude of Great Britain

WASHINGTON, March 3.—A commission to investigate the Benton case was appointed tonight by General Carranza. The decision was taken after a long session of the provisional cabinet.

Nothing was announced regarding the disappearance of Gustav Baugh, an American, concerning which the state department at Washington also had requested information. It was said that no change had been made in General Carranza's stand that the death of Benton a Briton, should be taken up by the English government and not by Washington authorities.

Relieves Tension. WASHINGTON, March 3.—Great Britain's procurement through Sir Edward Grey that the United States was in no way responsible for the recent execution at Juarez of William E. Benton, a British subject, and that the American government would not be asked to force as a result of the incident, was the chief development in the Mexican situation today.

The British view that the United States is not obligated to demand reparation for Great Britain related the tension here to some extent, although it is clear that the Benton incident has developed an intention on the part of the American government to make a more aggressive attitude toward the contending factions in Mexico.

First Important Conference. The situation was discussed by the president tonight in his conference with the two British diplomats. It was the first time the British ambassador had called on the president since the Benton execution, all his conferences having been with Secretary Bryan. He came primarily to introduce Sir Lionel Gordon.

While house officials said afterward the conference was for mutual information and that no plans had been suggested by Sir Lionel.

ENGLAND TO JOIN HANDS WITH U. S. IN MEXICAN CRISIS

Sir Edward Grey, Foreign Secretary, Outlines Great Britain's Policy

LONDON, March 3.—The British government's view that no immediate action could be taken by it in connection with the deadlock over the investigation into the death at Juarez of William E. Benton was made quite plain today in the house of commons by Sir Edward Grey, the British foreign secretary.

Sir Edward was however equally explicit in pointing out that Great Britain failed to obtain satisfaction through the United States. The British government resented itself the right to procure reparation, however it was able to do so. The promised reparation on the Mexican situation from the foreign secretary had been anxiously awaited.

It was delivered before a keenly interested gathering of the members of the house of commons. Intense resentment has been displayed throughout the British press over what is regarded as the attempt on the part of Venustiano Carranza, the Constitutional leader, to sow discord between the United States and England.

WEDNESDAY, MARCH 4, 1914

A YEAR OF WILSON

TODAY marks the end of the first year of Woodrow Wilson's White House incumbency. A year ago this noon, after 16 years of opposition, the Democratic party was returned to power. And, while a year is too short a time to permit of a final judgment of a party program, it is long enough to allow the formation of a general idea of what has been done and what is in prospect. It will be remembered that the Cleveland administration, before it was a year old, had been wrecked completely, and the Taft administration, in its first year, enacted the notorious Payne-Aldrich law and became embroiled in the Pinchot-Ballinger controversy.

The Wilson administration has escaped anything like such shipwreck. There is, indeed, every reason why Democrats should most heartily congratulate themselves on what has been accomplished. For the Wilson administration, under the able guidance of the President, has gone seriously to work to redeem its platform pledges, and has already written several of the most important of them into the law of the land. And those who are not Democrats may well admit that much has been accomplished.

The first big work of the Administration was the enactment of the Underwood-Simmons tariff bill. It is the lowest tariff written in many years, and, if its enactment has done nothing else, it has proved that the tariff may be revised downward without ruining industry. If the new tariff has not done what was promised by its sponsors in the way of reducing the cost of living, that is because, as Progressives predicted, the tariff had but little to do directly with the high cost of living. If there be criticism regarding the Democratic tariff program, it is that the tariff controversy is not yet settled; there must yet be established a permanent tariff commission.

Bigger in its results than the tariff bill is the Glass-Owen currency bill. It is perfectly true that the Democrats could easily have enacted a better bill, and one especially in which the people should have been given stronger control over the nation's finances, but it is also true that the new bill is a vast improvement over the old, and that under its provisions it will probably never again be possible to have such a banking panic as threatened the welfare of the nation in 1907.

Now the Democrats are wrestling with the trust problem. It offers more difficulties than either the tariff or the currency, because neither Democratic nor national opinion is well settled on a policy. It is quite evident that the Democratic ideal is to maintain the Sherman law, to enforce competition, and to establish an interstate trade commission with as little real power as may be conceded. Most modern economists are agreed that competition can't be restored. The Wilson administration will doubtless fail as completely in doing this as the Roosevelt and Taft administrations. But, with the trade commission established, it will be easy to increase its regulatory powers, as was done with the Interstate Commerce Commission.

Perhaps the most revolutionary act passed during the Administration is the Alaskan railway act. There are many who believe this is but the first step towards a system of government railroads. At least it does commit the United States to its first real experiment in that direction.

The Administration's worst record is its Mexican policy. "Watchful waiting" has been employed where only the big stick could avail. A strong policy might have brought some sort of order out of Mexican chaos; the "watchful waiting" policy seems to be drifting us inevitably towards war.

But, all in all, the Wilson administration has been successful. It has given the people what they voted for. If it has effected no fundamental reforms, that is because the people were not prepared for such reforms. Its efforts have been, however, in the right direction. It has helped to prepare the way for the solution of those big and fundamental problems which, thus

far, have been launched upon only in the Progressive platform.

To sum it up, while the Wilson administration may be said to have exhibited progressive tendencies, it has been in no sense of the word Progressive. Such national welfare legislation as is promised in the Progressive platform has not been seriously considered. Control of industry in the interest of the people has been avoided in favor of "regulated" competition. The work of the Administration thus far has all been in the interest of the small business man; next to nothing has been done for the workingman and the farmer.

A NEW YORK PRESS MUZZLER

JUDGE HAND, of the Federal Court, in New York, has imposed a fine of \$500 each on two members of the New York Tribune staff for contempt in refusing to divulge the source of certain information published by them in connection with the Littauer smuggling case. The Tribune announces editorially that it "will lend all the assistance in its power to carry the cases up to the Supreme Court of the United States." And in this determination it should have the support not only of the press but of all right-thinking people.

The District Attorney contended in this case that the giving of information constitutes a crime for which both the giver and the newspaper man who accepts it are liable to punishment. Carried to its logical conclusion, this would mean the establishment of a rigid censorship, and the papers could print nothing about governmental affairs except what was formally given them from official sources. Fine! There would be an end to exposures of graft and rascality; the crook and the incompetent in office would enjoy complete immunity from publicity. The freedom of the press would be about as complete and effective as it is in Mexico, Russia and other enlightened lands where the censor decides what shall and what shall not be printed.

But there is no reason for alarm. Such a decision as that of Judge Hand will not stand long in the Twentieth century, however good it might have been in the Eighteenth.

A NEW POLICE CHIEF

THE resignation of Chief Burno imposes upon Commissioner Johnson and the other councilmen a responsibility which should not be lightly assumed—that of finding the right man to head the department. Since the overhauling which followed the dance hall investigation a year ago the Police Department has been in much better condition than it was before then, but there is reason for believing that its efficiency is still below par. This, at least, is the prevailing opinion about town. It may be the fault of an individual or of the system whereby responsibility is borne partly by the Commissioner and partly by the Chief. At any rate, it is safe to say that a capable and fearless Chief could make a few innovations which would greatly improve the service.

We do not know whether Colorado Springs has fewer policemen than it really needs, but it is a remarkable fact that the sight of an officer on duty anywhere except in the business section in daytime is so rare that most people make a note of it. Who ever saw a real, live policeman in the North End, or on the west side, or in any other residential section? Who ever saw one actually exposing himself to the cold of the street late on a winter night? They can be found groups of them cuddling up to the radiators in an all-night restaurant, occasionally slipping out for a few minutes to ring in a report which is supposed to notify the central office that they are still awake then back to the warmth and good cheer of the restaurant. But that isn't policing the town.

It would be well for the Commissioner, in looking over the list of candidates for the job, to bear in mind the importance of picking one who can and will get work out of his men.

OPEN-PARLIAMENT

[All letters intended for the Open Parliament must be the name and address of the writer, not necessarily for publication, but as an evidence of good faith. Controversial letters will not be published without the signature of the writer. Communications for this department should be limited to 100 words and should be free from personalities. Religious controversies cannot be conducted in this column.]

THE SINGLE TAX.

To the Editor of The Gazette.

Mr. George Knapp, in Sunday's Open Parliament, makes this statement (in answer to Equitable Tax) letter which appeared Saturday morning): "The opponents of single tax here, as elsewhere, are compelled to resort to deceit, misrepresentation and personal abuse of single taxers." The copy of the letter from the Spokane Chamber of Commerce in Saturday's Gazette together with the letter of Mr. Knapp's following morning proves beyond a doubt that some of the accusations are warranted. It would be unnecessary for Mr. Knapp to present, for inspection, the records of the local Single Tax club or the Idaho fund commission, for the reason that he has openly acknowledged the defrauding of his expenses by the first mentioned organization. Many of us would consider ourselves very well paid if our expenses were assured.

The deceased Mr. Pele, it is said, contributed \$25.00 annually during his life to the Pele fund com-

mission, and the fund was used for the purpose of paying the expenses of the Pele fund commission.

It is amusing to quote from the letter in question. The object of single tax is to "lift the tax burden from the poor to the backs of their despoilers, the monopolists, speculators and 'grabbers'." The plan of procedure is a very peculiar one to endeavor to alleviate poverty by steeping from taxation the wealth of the rich.

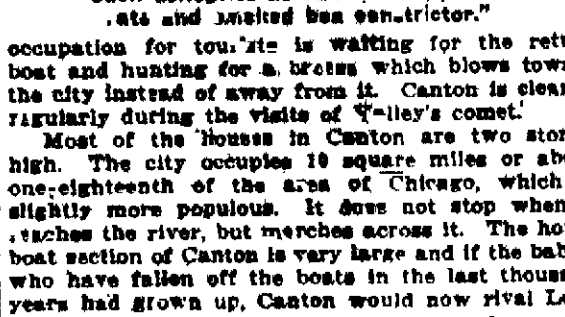

CANTON, CHINA

BY GEORGE FITCH
Author of "At Odds in Szechwan"

Canton is the metropolis in China. It contains 2,000,000 people, according to the most accomplished guessers. All of these people look alike to the occidental visitor and for all we know, the Chinese government may have been watching a few thousand Cantonese around and around past the census enumerators for the last 10,000 years.

Canton looks from the hills around it like a large prairie of red roofs. It has no great buildings and very few moving picture theaters. It has 600 streets through some of which fat men have to edge sideways and two large pagodas which form its only skyline. When the tourist invades England, he is shown buildings 700 years old. But Canton's biggest pagoda is 1,300 years old and is still in perfect health.

Canton is situated on the Pearl river, in the south part of China, and can be reached by steamer from Hong Kong, 70 miles away. The principal

"Such delinquency is called out, picked up and snatched from the streets."

occupation for tourists is waiting for the return boat and hunting for a grassy hill which blows toward the city instead of away from it. Canton is cleaned regularly during the visits of the comet.

Most of the houses in Canton are two stories high. The city occupies 10 square miles or about one-eighth of the area of Chicago, which is slightly more populous. It does not stop when it reaches the river, but marches across it. The house boat section of Canton is very large and if the babies who have fallen off the boats in the last thousand years had grown up, Canton would now rival London in size.

Canton has a large trade in tea with the western world and has a white population of 400. Neither tea nor typhoid fever are known in the city, a fact which "visiting boys" term to be a "dash" for the boys as the "dash" term. Canton, also, are very light-skinned and approach property and offer the visitor a delicacies as fried dog, steamed cat, boiled pig, pickled rats, smoked box constrictor and bird's nest soup. On account of this hospitality, Americans do not visit much in Canton.

Canton is so old that the cemeteries cover more ground than the city and stretch over the hills for miles. It was introduced to Europe by the Portuguese in 1517. It began selling tea in England in 1667. A light snow fell in the city in 1855 and the British blew large regular holes in it in 1861. The first game of baseball was played in the vicinity in 1903.

The Age of Condensation

BY RUTH CAMERON

Have you ever noticed to what extent this age is an age of condensation? Little things are in the ascendant; the smallness of an article is often advertised as its greatest recommendation; almost everything has shrunk since the days of our fathers.

Take books, for instance. Where are the ponderous tomes of yesterday? Shrunk by the use of thinner and thinner paper into slender and easily handled volumes. I saw a book which I thought would be useful to me in the public library one day. It consisted of two large volumes. I ordered the book from the publisher, and when my purchase came it was one little volume, not so large as either of the other two. "This isn't the book I sent for," I said. But it was, only in a new edition, in which, by the use of extremely thin paper, the 1,267 pages, which the book contained, had been squeezed into a single volume about an inch and a half thick and weighing scarcely a pound.

The tiny books known as Moffet and vest pocket editions are peculiarly the product of the Twentieth century. The vest pocket is by the way, a favorite measurement for the desirable smallness of an article. "It will go in your vest pocket" is the last word of recommendation. Camera manufacturers of 15 or 20 years ago would have probably thought it impossible to make a good camera small enough to go even a man's coat pocket. Today we have several makes of cameras that will go into a man's vest pocket—and not my camera either, but first-class products.

Again, do you remember the first fountain pen you bought some 10 or 15 years ago? What a bulky and elephantine thing it was compared with the elegant and efficient little thing of today. This watch is another article which demonstrates this generation's demand for condensation, as a comparison of the expensive watches of today with the expensive watches of your grandfather's time will show you.

Of course our modern apartment houses are the most striking example of condensation. Probably they are at the root of the whole business. When a scrap of space that would have been a "joke" or an entry way in an old-fashioned house, passes for a room; when the stately and spacious old-fashioned kitchen with its attendant wash room and ice room and pantries and sheds is shriveled up into the unbelievable tiny kitchenette, when garrets have disappeared altogether, what wonder that we are obliged to compress all our belongings to fit into these curried dwelling places?

What wonder that even the women themselves have grown slenderer and the men no longer have the massive shoulders of yesterday?

This is an age of condensation. We, as well as our belongings, are being cut down to fit into it.

CRIMINAL RECORD

THIRTY YEARS AND TODAY TWENTY YEARS AND TODAY

MARCH 4, 1914.

Although there was a foot and a half of snow on the ground, the police were out in force to keep the streets clear. It probably won't be so thick as it was the day before yesterday.

Mr. Murphy of the New York City Police Department is in New York on a visit. He is a thoroughly good fellow.

There was a fire at the New York City Police Department today. The fire was caused by a gas leak. The fire was extinguished by the police.

Hereafter, in Colorado, cities will have to live within their means. It's a mighty good decision for the people of the cities, too.

Carranza upholds the acts of Villa. Could he do anything else?

In the only straight-out, three party fight in Maine Monday night, the winner was thought to be the Bull Moose in Maine were dead.

If that perplexed foreigner, who couldn't remember whether Woodrow Wilson is senator or king, had but asked a United States senator, he would quickly have learned that he is most decidedly king. When he commands, the senate shudders.

In spite of all the dire predictions of Republicans, the United States today has managed to wobble along. A year under Democratic rule.

If not all the tools to promote Democratic aspirations have been realized, we can comfort ourselves by the thought that neither has the path predicted by Republican prophets of evil overwhelmed us.

In fact, the opinion of the great majority of the people would undoubtedly be that the first year of Wilson is greatly to be preferred to the first year of Taft.

One federal district court having declared the blue sky law unconstitutional, comes now another judge and tells us that it is constitutional. And yet they tell us that the law is unconstitutional. How could it be so?

It would really seem that the United States can afford the extravagance of giving a medal of solid gold to Colonel Goethals.

Rudyard Kipling is going to split his life blood in defense of Ulster. Conditions in Mexico are nothing to what will happen in Mexico. England, the home rule bill is adopted if all these bloody threats are called out.

Matty signs again with the Glens, and the National league is saved.

If we keep on looking Rhode Island to England, we'll give the bloody English a real kick team, one of three days.

The Evening Telegraph and the El Paso Herald are the two most reliable writers of Odds and Ends a Socialist. Most level-headed people like that brand of Socialism, especially the taxpayers who pay that \$5.00 per day for the privilege of being taxed. Colorado Springs Public Opinion.

The first "Socialist" in the art of ending strikes was one T. Roosevelt.

We do not think that Mr. Culligan will be able to deceive the people of Colorado. He has fully proven that he is not only a hypocrite, but that he is not a man whom the people could safely rely upon.—Triad Advertiser.

Our political guides must continue to be, of course, those white-robed guardians of the coal counties, Casadero Barrels, "Jeff" Parr, et al.

The Democratic organization of Denver supported the retail plan, having spent quite a sum of money hiring workers. The Producers lived the other way and won with sex.—Durango Herald.

It may not be amiss to state that what is left of the Republican organization joined hands with the Democrats.

The Las Animas county grand jury recommends that the militia be kept indefinitely in the strike zone. But Ammons can't box or borrow any more money. What's to do?

Garfield county's taxes have been increased by \$40,000. In most counties this year the tax issue will overshadow all others.

If a proclamation of Mr. Martin's position on the labor question in Colorado could be obtained as the writing of all other suggestions of a governor would go by the board—it would be all Martin. If there were certainty that a policy of law-enforcement regardless of union men's feelings, would be insisted on—Boulder Camera.

Those conservative Democrats certainly do love John A.

Denver papers "Come to Denver on March 15 and help us celebrate the passage of the cruiser Colorado through the Panama Canal." Anything to get the people to the state to keep Denver interesting and incidentally for the men and women to do a little shopping.—Durango Herald.

Since papers were taken away, Denver is having a desperate time getting the people to trade there.

How to Keep Well

By Dr. W. A. Evans

Overlooked by the majority of people, and even by the medical profession, is the fact that the body is a machine, and like any machine, it needs to be kept in good order. The body is a machine, and like any machine, it needs to be kept in good order. The body is a machine, and like any machine, it needs to be kept in good order.

FIGHTING FOR THE CHILDREN

It is a fact that the children of the poor are the most vulnerable to disease and death. The children of the poor are the most vulnerable to disease and death. The children of the poor are the most vulnerable to disease and death.

GIVE UP SMOKE

It is a fact that the children of the poor are the most vulnerable to disease and death. The children of the poor are the most vulnerable to disease and death. The children of the poor are the most vulnerable to disease and death.

TO QUIT BICOLORITY

The following method of treating the disease of bicolority is recommended by Dr. J. M. Hill, who knows from both experience and theory that it is right.

When bicolority sublimates has been taken the doctor must be sent for and put in charge at once. The stomach must be emptied. Half a teaspoonful of bicarbonate of soda dissolved in a glass of water is given every hour for two days. Then every four hours for six days, or until the mercury disappears from the urine. The urine should be examined twice daily for mercury. For the first dose use ordinary cooking soda. For the after doses use the best grade of chemically pure bicarbonate of soda. The ordinary cooking soda is not pure enough to use in such quantities for more than a single dose. If the stomach is disturbed give half a cup of milk.

Mode of action: Soda converts the chloride of mercury into calcium and then into insoluble oxides and carbonates of mercury. Calcium acts as a purgative and aids the intestines of mercury. Some of the mercury oxide unites in the intestines with sulphur compounds to make sulphide of mercury, a relatively harmless substance. If the mercury has already been absorbed the soda dissolves the albumen of mercury and changes it into calcium and oxides, a harmful form which the kidneys then excrete.

If the vomiting prevents the use of soda by the stomach it should be given as follows: One hundred and twenty grains of chemically pure bicarbonate of soda is dissolved in one pint of salt solution (eight parts to every thousand). Inject six minima into vein once every six hours.

Giving white of an egg as an antidote has this drawback: small doses precipitate the mercury as albuminate of mercury, but added quantities dissolve the precipitate and convert the sublimates into albuminate of mercury.

Of the three Pacific coast states, Oregon and Washington far outstrip California in the work done by the owners for forest protection.

JR. O. U. A. M. CONVENTION MAY BE BROUGHT HERE

Plan to Transfer Meeting From Victor to This City Being Considered by High Officials

The next state convention of the Jr. O. U. A. M. will in all probability be held in Colorado Springs, according to a statement made yesterday by William L. Bunker, one of the delegates of the local council to the state convention. The question of the next meeting place is now being considered by the board of officers.

Victor was chosen unanimously as the 1931 meeting place by the last convention, but as that town is located far from many of the councils a full-

ing has been that the heavy mileage would cut down the attendance and for that reason the board is seriously considering changing the place of meeting. It is understood that Victor is anxious to entertain the convention but is in favor of Colorado Springs as a meeting place if any change is necessary in the opinion of the board. Colorado Springs is centrally located and this fact will be considered by the board. The claims of this city are being urged by Secretary O. E. Rickerson and State Treasurer J. P. Madden. The board of officers of the order consists of H. S. Bernis of Leadville, O. L. Stiles of Denver, and M. W. Mullen of Colorado Springs.

The delegates to the convention from the local council are: Van E. Ross, B. A. Panta, C. W. Stevenson, Harold J. Brown and William L. Spencer. Others who are boosting for the Springs are W. B. Price, chairman of the state law committee; H. G. Spencer, chairman of the state finance committee; T. L. Stanley, chairman of the state credentials committee, and I. M. Boyd of Colorado City, chairman of the state judiciary committee.

IMPROVEMENT SOCIETIES PLAN TO WORK TOGETHER

East Side Organization Names Committee to Act With Others in Investigation of Single Tax

At the annual meeting of the East Side Improvement society held last night at the Columbia school building, cooperation of all improvement societies of the city in the work of investigating the cause for the so-called excessive rates of taxation was discussed and a committee was appointed to act in conjunction with committees which, it is expected, the other societies will name.

The East Side Improvement society has been investigating the theories of single tax advocates and voted last night to ask George Knapp, the representative of the single taxers, to speak at a meeting of the society next Monday night. At this meeting the members of the society will join in the discussion with Mr. Knapp and ask questions on the subject. The society plans to hold a series of meetings, inviting representatives of both sides of the tax question to appear and present their views on the subject.

The annual election of officers was to have been held last night, but owing to the volume of other business, the election was deferred until the next meeting.

Work Under Way at Prospect Lake Park

Mayor McKesson and Commissioner Lawton have made plans by which Prospect Lake is to be surrounded by one of the most attractive parks in the country. Work already has begun on the building of a boulevard clear around the lake. The new road is being graded and leveled and as soon as completed will be surfaced with gravel and rolled.

A have been transplanted so that there is a row on either side of the driveway and on either side of the walk, which will be built in its drive. The remainder of the land is to be graded and it is expected that when completed the park will be one of the most attractive in the state. The road is to be one and one-half miles in length and will no doubt prove attractive to motorists.

The work of preparing the children's playground which is to be located at Prospect Lake has begun. It will be located just inside the new entrance at the 3rd of Cimarron street. One of the most attractive features it is expected, will be the wading pool. Part of the lake at the edge has a cement bottom which will be fenced in such a way that the children wading in the pool cannot get where the water is deep.

CHARITIES ASKS HELP FOR TWO YOUNG MEN

Agent W. F. Worcester of the Associated Charities makes the following appeal in behalf of two young men who are in need of assistance.

"Last week two young men, strangers in our community, very ill with tuberculosis, came to the Associated Charities for assistance, one pleading to be sent home, the other to be cared for here. One is from Kentucky and the other from Texas. Each has spent all his savings, in one case \$500, and in the other \$300, in search of health. Relatives of both have been communicated with, but unfortunately they can do nothing more than offer a home to the sick one.

"We of us can realize the anguish that one, ill, and unable to work, must suffer as he sees his savings grow smaller and smaller and finally disappear. The Associated Charities appeals for assistance so that it may send the one home and care for the other here. Twenty-four dollars and sixty cents is needed for the transportation of one, and \$25 will keep the other young man for a month."

D. A. R. TO ENTERTAIN MANY GUESTS MARCH 10

Zebulon Pike and Kinnikinnick chapters of the Daughters of the American Revolution have invited among other special guests at the reception to be held at the Antlers next Tuesday members of the Sons of the American Revolution, their wives or friends. The chapters also have extended to all members of the D. A. R. the privilege of each inviting a guest to the reception. Members who expect to take a guest or guests to the luncheon to be held at the Antlers next Wednesday are asked to report as early as possible to Mrs. C. C. Hamlin, chairman of the luncheon committee.

O. H. WILLIAMS NAMED AS COURT REPORTER

O. H. Williams has been appointed court reporter by the district judge to succeed the late E. L. Preston, who died recently. Williams is considered one of the best court reporters in the west. He has lived in Colorado Springs for the last 12 months.

WORLD TO PAY FOR PROTECTION FROM FIRE

Society Organized and Executive Committee Authorized to Make Contrast With City

Residents of Ivywild will make an effort to enter into some sort of contract with the city of Colorado Springs for a certain amount of fire protection for their property.

Such was the conclusion reached by residents of the suburb to the south at a meeting last night at Ivywild chapel. The action followed a long discussion on fire protection, during which the advisability of organizing and maintaining a volunteer fire department was thoroughly threshed out.

The executive committee of the Ivywild Improvement society which was organized at the meeting was authorized to enter into a contract with the officials of this city for such protection. The committee consists of the officers elected last night and two other members as follows: W. W. Williamson, president; W. P. Larabee, vice president; C. S. Robbins, secretary; W. L. Kirkwood, treasurer; Will Mason, Jr., assistant secretary-treasurer; C. E. Maddocks and I. Polant.

If a contract is entered into, it necessarily will have to be carried out by the membership of the improvement association. For this reason the charter members of the organization will make a strenuous campaign for members during the next few weeks. It is expected that every resident of Ivywild will become a member of the association and assist in carrying out its plans, especially those for fire protection.

A committee on highways also was appointed last night. Residents for some time have complained of the bad highways in the suburb and especially the bridges, several of which are said to be in a dangerous condition. The committee will make an effort to have the highways improved and the bridges rebuilt.

R. L. Chambers was present and made a short talk on improvements and upkeep of property.

GRAND OF THANKS

To the friends and neighbors who helped us in our recent sorrow we extend our thanks, also the Eagles lodge D. A. U. and others for flowers.

MRS. E. J. MILLER.
SON AND DAUGHTERS

Societies and Clubs

The Ladies' auxiliary to Painter local No. 171 will meet tomorrow afternoon at 3 o'clock with Mrs. Hamble, 313 Jefferson avenue, Colorado City.

Helen Hunt district, Court of Honor No. 1157, will meet tonight in W. O. W. hall. Three delegates and alternates to the supreme meeting in St. Louis in June will be voted upon.

The L. C. B. A. will meet tonight in St. Mary's hall after church services.

Centennial chapter No. 18, Order of the Eastern Star, will meet tonight at 8 o'clock in Masonic temple. Visiting members invited.

Dr. A. R. Solenberger and Dr. D. A. Vassarhoush will address the Colorado Springs Nurses association at the Y. W. C. A. this afternoon at 4 o'clock on "After Treatment of Operative Cases of Ear, Nose and Throat."

The art and literature department of the Woman's club will meet this afternoon at 3 o'clock in T. O. O. P. hall. Miss Maybelle Carter will read and discuss the play, "His Eldest Son," by John Galsworthy.

The Fortia club will meet at 3 o'clock tomorrow afternoon at the home of Mrs. Carlton Aylard, 1208 North Weber street. Mrs. W. P. Kinney will read a paper on "Colonial Schools and Education."

The monthly meeting of the Nurses' association will be held today at 3 o'clock at the Y. W. C. A. rooms. Dr. Solenberger will lecture.

The local board of managers of Beth-El hospital will meet at the hospital this afternoon at 3 o'clock.

The Frances Willard W. C. T. U. will meet tomorrow afternoon at 2:30 o'clock at the home of Mrs. Ada Cooper, Roswell. The subject will be "Christian Citizenship," and the program will be in charge of Mrs. Hart.

The Poinsettia club will meet Friday afternoon at the home of Mrs. W. T. Richards of 794 South Tejon street.

At the Lenten study of Christ Lutheran church, to be held tomorrow night at the home of Mrs. Belle King, 17 Ramona avenue, Ivywild, the subject, "God in His Word," will be discussed. The Rev. Charlotte D. Crossley will lead in the study. All interested persons are welcome.

The J. O. U. A. M. will meet at the G. A. R. hall tonight at 7:30. Members are requested to be present.

GOV. O'NEAL TO CALL AN EXTRA SESSION

MONTGOMERY, Ala., Mar. 3.—Gov. O'Neal today announced that he would call a special session for May 11 for selection of a United States senator from Alabama to fill out the unexpired term of the late Joseph F. Johnston.

Dumb Chills and Fever

Douglasville, Tex.—Five years ago I was caught in the rain at the wrong time," writes Miss Edna Rutherford, of Douglasville, "and from that time was taken with dumb chills and fevers, and suffered more than I can tell. I tried everything that I thought would help, and had four different doctors, but got no relief, until I began to take Cardui. Now I feel better than in many months." Cardui does one thing, and does it well. That's the secret of its 50 years of success. As a tonic, there is nothing in the drug store like it. As a remedy for women's ills, it has no equal. Try it. Price, \$1.00. Adv.

Abused

If you abuse coffee you will suffer just as people are injured eating hot bread or drinking too much ice water. Yet there is nothing so healthy or so inviting as a cup of delicious coffee, made from

FRESHLY ROASTED beans, as the CAFFEOL is developed in the roasting, and it emits aroma in the pot which makes it so satisfying. Just order a pound of our freshly roasted coffee and judge for yourself.

News of the Courts

In police court yesterday, "Shorty" Roberts, an old offender, was fined \$20 for drunkenness and committed to jail. Roy Scott was fined \$25 for permitting drinking in his place, and Frank Smith, Ed Patterson and Bob Hudson were fined \$10 each for drinking in a public place.

P. Gonzalez, charged with carrying concealed weapons, was tried in Justice Madden's court yesterday and was bound over to the district court. In default of \$500 bond, he was remanded to the county jail.

Suit to collect \$248.17, alleged to be due as delinquent taxes, has been filed in the district court by Grant White against the Yates & McClain Realty company. White alleges that he purchased a plot of land from the defendant and that he was compelled to pay four years back taxes on the land which, he supposed, was clear of incumbrance.

ROAD IS FORCED TO GIVE MORGAN & CO. PREMIUM; PEOPLE FOOT THE BILLS

WASHINGTON, Mar. 3.—Representative Collier of Mississippi in a speech in the house against interlocking directorates declared today that the Southern railroad had to go to J. P. Morgan & Co., with an exorbitant premium to get money with which to meet \$50,000,000 worth of bonds about to fall due.

"They are straining every nerve to pay the enormous interest on that great bonded indebtedness of theirs," said Mr. Collier. "They cannot pay these bonds so they have to go to J. P. Morgan & Co. and get \$50,000,000 to redeem those bonds. The Morgan company says 'We will give you \$50,000,000 but we want \$50,000,000 for this \$50,000,000 of bonds, we want you to add \$10,000,000 more in bonds.'"

"The people in Mississippi, Alabama, Georgia, Florida and the Carolinas, Tennessee, Virginia and Kentucky," he said, "are paying the freight and giving Morgan & Co. more than ten million dollars and have to pay the interest on those bonds."

RAILROADS ASK RELIEF FROM THE CANAL ACT

WASHINGTON, Mar. 3.—Ten more railroads applied to the interstate commerce commission today for relief from the operation of that provision of the Panama canal act which requires railroads to divest themselves of water line holdings before July 1, unless the commission shall exempt them from the law. Among the applicants are

The Oregon-Washington Railroad and Navigation company, which operates steamers on the Willamette, Columbia and Snake rivers and across Lake Ower Ales; the Southern Pacific company and the Central Pacific railroad, which own 1,400 of the 5,200 shares of the Sacramento Transportation company, operating boats on the Sacramento river; the Southern Pacific company and Morgan's Louisiana and Texas Railroad and Steamship company which controls the Direct Navigation company, operating on

HELD FOR MURDER OF MAN IN COURT ROOM

ST. LOUIS, March 3.—Henry Zang, who yesterday shot and killed Wesley ("Red") Simon, three hours after the latter was put on trial for the murder of another gangster, was today bound over to the stand jury by the coroner's jury which heard Zang's own story of the shooting.

Before the inquest was opened each of the 350 spectators was searched for weapons by policemen on hand to prevent another killing. Zang will be held without bail pending the action of the grand jury.

Canada has a society of forest engineers. Dr. B. E. Fernow of Toronto is president and Mr. F. W. H. Jacobson of Ottawa is secretary.

LIEUTENANT HARBORD, WHO WILL COMMAND THE DISCOVERY IN THE STACKHOUSE EXPEDITION

Lieut. A. E. Harbord, U. S. N., has just been made commander of the ship Discovery, which was the ill-fated Captain Scott's old ship in the J. Foster Stackhouse expedition to the South pole. Lieutenant Harbord was an executive navigating officer on the Shackleton expedition of 1906-07.

It is well when buying to examine the label on the can. Unless it shows the ingredient cream of tartar, don't buy it.
Dr. Price's baking powder is absolutely free from alum.

Belding and Souders are marvelous when it comes to driving away dull care with song and laughter. Miss Belding is par excellence so far as singing goes is concerned. And Souders can get more racking out of a piano than half a dozen performers. It is an ordinary musical act. That is, as a rule, the performers are, and as the way, the Keuple's song. Miss Belding sings as cute as the doll; it takes its name from. It is a song well worth hearing.

Black art always has its charms. So the Pharo comes in for their share of attention during the performance. Their performance is certainly invigorating. A novelty, by the way, is introduced that makes the act one of the best seen here in some months. This is the singing and clapping especially the clanking of a little 6-year-old girl. The tiny tot is produced from nowhere, dances down the stage and sings a song with all the confidence and finesse of a veteran. It is not the ordinary child act.

Udell and Rippell have a novelty

Never missing an opportunity to give the people of Colorado Springs the very best obtainable, the Ochs-Ahearn management has arranged with the World's Famous Film Corporation so that every schoolboy and girl can see this great historical spectacle of the near-known and hardly known most pathetic film and history of the American West. The picture is not only a source of inspiration and an incentive to go to every student. Father Mr. Menzies expressed his enthusiasm for the beauty of character, the inspiration and undying faith portrayed and regretted that it should be necessary to present the convincing and brutality as was undoubtedly the real thing happening in history. He said

In his dramatization, New Tzong

MILWAUKEE, Wis., March 3.—

Ralph Lopez, Mexican bandit who shot and killed several men at Bingham Utah, and for whom a nationwide search has been conducted since his escape from the Utah-Apex mine, may be a patient now in the Milwaukee county hospital.

The police, through information furnished by County Physician A. F. Young, are conducting an investigation into the identity of the patient who gave his name as Joseph Montes, and who says he is a Mexican refugee. While the police are skeptical, they have wired to Utah for a picture of the bandit.

THE DAY'S HAPPENINGS IN SPORT CIRCLES

Edited for THE GAZETTE by T. W. Ross

TERROR FIVE TASTES DEFEAT FOR FIRST TIME THIS YEAR, METEORS WINNING 39 TO 32

The Colorado Springs High School Terrors were defeated by the Y. M. C. A. Meteors, 39 to 32, last night on the Y. M. C. A. floor. The defeat marked the first of the season for the High School quintet.

Shaffer, guard and all-conference player, was out of the game last night, breaking the Terrors' defense. This is the reason attributed by Terrors fans for the defeat. At no time did the High School five get its intricate defense working just right. The game was a hard-fought one and the Terrors were about evenly matched in jumping at center and the A. I. P. was about evenly divided. Wood and E. Thompson did very good work for the Meteors, Wood on the left and Thompson on the defensive. The Terrors played with their usual skill, despite the absence of Shaffer, but they failed to do much in a defensive way. The Meteors took the lead from the first jump and held it all the way. Until the last few minutes of play, there was at no time a difference of more than two points in the score. The

Meteors led, 17-15, at the end of the first half.

By winning the game the Meteors take the city championship. The Terrors play Pueblo Centennial next Friday night in Pueblo. Shaffer probably will be back in the lineup. This being the case all hope favors the Springs.

Drawings of Davis Cup Matches Made by Chairman Wrenn

NEW YORK, March 3.—The drawing of the six nations' challenge for the United States for the Davis international lawn tennis cup was made today by R. D. Wrenn, chairman of the American committee. Germany and Australia drew byes in the first round. Australia and Canada were coupled on the brackets of the first round in the top half and the British Isles and Belgium were drawn against each other in the lower half. Germany will meet the winner of the Australia-Canada match and France will meet the successful nation of the British Isles-Belgium series.

TAMPA, Fla., March 3.—Outfielder Tommy Leach will be the captain of the Chicago National ball club this year, according to an announcement today. Leach acted as captain last year when John Everett was absent.

JAKE STAHL

Former manager of the world champion Boston Red Sox, who is being sought to handle the helm of the recently created Brooklyn team of the Federal league. The many millions of the Ward family are behind this team, and Stahl has been promised to have a free reign in organizing a team that will outshine and outdraw the Brooklyn Superbas of the National league, who have monopolized the baseball patronage of the City of Churches for many years.

CADILLAC WHO NOT PUT A 'SIX' ON THE MARKET

Henry M. Leland, president of the Cadillac Motor Car company, and recently elected to the presidency of the Society of Automobile Engineers, corrects an erroneous impression which seems to prevail in some quarters with regard to the future plans and policies of his company.

"We could not expect to control," says Mr. Leland, "the very considerable volume of 'mouth to mouth' advertising which the Cadillac receives. It would keep us busy if we were to attempt to confirm or deny the many and varied reports that are constantly being circulated concerning the Cadillac. But when a misunderstanding or misapprehension of the methods, plans or policies of the Cadillac company is liable to crop into this sort of gratuitous publicity, we consider it a duty we owe the public as well as ourselves to correct whatever inaccuracies may unwittingly be reported."

"We have experimented, it is true, with engines of six cylinders; in fact, we have built a number of such cars in the past four years. And we tested them to the utmost, and we have compared them, point by point, with some of the most highly regarded 'sixes' which we had bought for just this purpose. It may be interesting to note, in this connection, that we did not find a single 'six' which, in our opinion, outperformed our own in these exhaustive tests. Most of them, in fact, were outperformed by our own. These experiments may have been the basis of rumors that we were to market a six cylinder Cadillac—but this company has no such intention."

"At one time or another our experimental division has built automobile engines of almost every conceivable type and size. We made two cylinder cars some years ago, and it was rumored that we were to market such a car—but we never did. We have also made three cylinder cars and it was rumored that we were to market them—but we never did. And in the same way the rumor that we contemplate the marketing of a Cadillac six is without foundation. Our experimental division, which we believe to be the most thorough in the entire industry, is ever active. No expense is ever spared in testing, investigating and experimenting, no time is left unturned in our efforts to discover and provide that which will demonstrate itself to be the best in principle and in practice."

"Our tests, investigations, experiments and comparisons have demonstrated conclusively that our four cylinder engine affords the highest degree of all-around efficiency obtainable coupled with greatest economy of operation and maintenance. Furthermore, our tests have proved that such an engine as the present Cadillac, power-planted in connection with a properly designed two-speed axle, produces not only an extraordinary range of operating flexibility but an extraordinary degree of operating and maintenance economy and marvellously luxurious riding qualities, while reducing friction and consequent wear to a marked degree and reducing vibration almost to the vanishing point. With this knowledge to guide us, we certainly have not the slightest idea of departing from our present policy."

BERRY, PORTLAND CATCHER, JUMPS TO FEDERAL LEAGUE

PORTLAND, Ore., March 3.—Claude Berry, Portland Pacific coast league catcher, has jumped to the Federal league, it was announced by Judge McCreedy, owner of the Beavers today.

LEVINSKY EASILY BEATS M'KAY IN 10-ROUND BOUT

NEW YORK, March 3.—Battling Levinsky of Philadelphia defeated Ed McKay of Winnipeg by a wide margin in their 10-round bout tonight. They are light-heavyweights.

'PLAY FAIR OR WE CHEAT,' SAYS PRES. GILMORE OF FEDS

CHICAGO, March 3.—The greatest war of baseball history was threatened by President Gilmore of the Federal league today as the result of reports that the American and National leagues were proscribing among the Federal players. News that Pitcher Blanding had rejoined the Cleveland Americans, after having signed a Federal contract, forced President Gilmore to take action. Besides Blanding, Kilmer, Williams and Baumgardner, are players who the Federals claimed, have violated contracts with the new league.

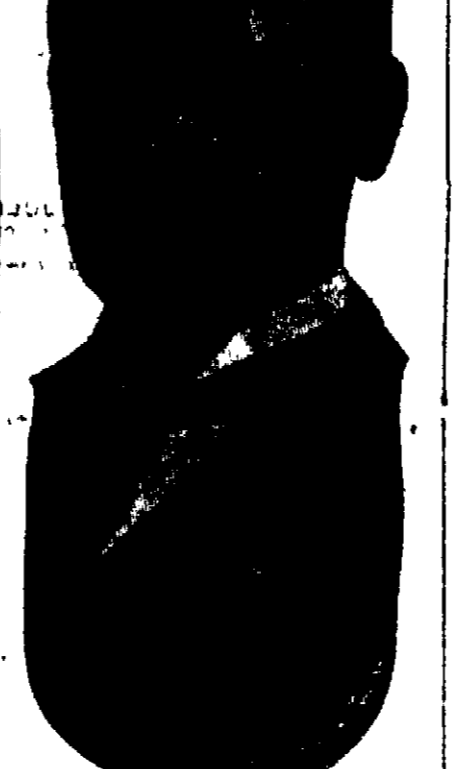

"If our contracts are no good their contracts are no good and a player can disregard a contract with a club in organized ball as easily as he can ours," said Gilmore. "Therefore, if the National and American league clubs are trying to take our signed men away from us, we will take theirs away."

"We have unlimited cash and the united support of all our club owners and backers. We can bid as high for the players as anybody."

"Up to this time we have played fair with our rivals. We gave up Cole, despite his having signed with the Chicago club, when we believed that the courts would have given him to us. We signed Kilmer and Blanding in good faith and advanced money to them."

Negotiations were begun, it was said today, between President Gilmore and Ray Collins, the Boston American pitcher, whom Gilmore wants. Dick Egan, the Cincinnati player, it was learned today, is the eighth of the world tourists sought by the Federals.

Mul. Who Placed the Feds in Manhattan

Robert R. Ward, the millionaire baker of Pittsburgh, who is said to be the head of several local bread trusts, is the man who has shocked the managers of the National and American leagues more than anyone else, except J. A. Gilmore, president of the Federal league.

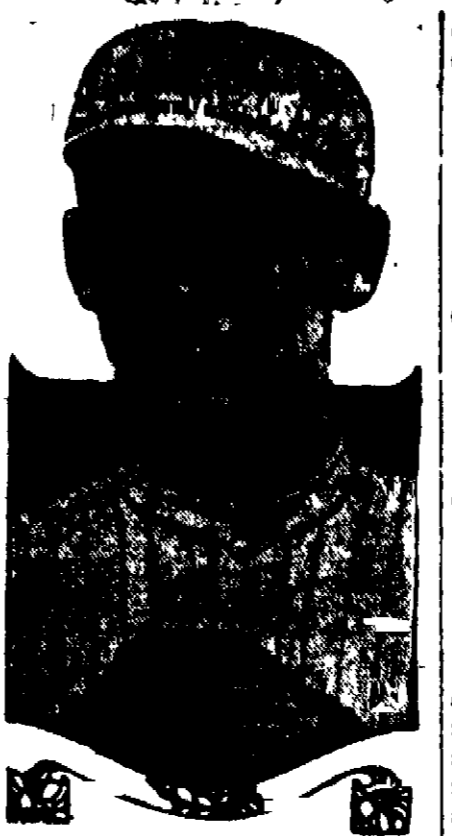

For it was Mr. Ward who has put up the money for the entry of the Federal league into New York. He closed a deal the other day by which he took a 10-year lease on Washington park, Brooklyn, the old home of the National league there. Inasmuch as the park is within 30 minutes ride of the downtown section of New York city, where most of the baseball patrons come from his action is virtually the same as placing a club on Manhattan island. In fact Washington park, though across the East river is really nearer Manhattan than the Polo grounds, which is so far north on the island that the trip there from downtown requires nearly 50 minutes on the elevated line.

After the Federal league had broken into Chicago the next place of importance to give it standing was New York city. The location of a club there placed it among the two major leagues. Had Chicago and New York been left out many local ball men would have been inclined to place the new league in a class with the International and the American association.

If Mr. Ward can put a winning club in Brooklyn he will have considerably advanced the Federal league's position over the National league club for his grounds are much more conveniently located and the Brooklyn club has been so far down in the winning list that it has come to be something of a joke.

Only when one knows how can he secure the best results in washing a car.

"Smoky" Joe Wood, the sterling young pitcher of the Boston Red Sox, who will be unable to start the season as a regular artilleryman for the Sox this spring. Wood is slowly but surely recovering from the effects of an operation for appendicitis at his home in Port Jervis, N. Y.

Flynn and Dillon Fight Ten Speedy Rounds to a Draw

KANSAS CITY, March 3.—Jim Flynn of Pueblo and Jack Dillon of Indianapolis fought 10 fast rounds here tonight to a draw. Dillon knocked Flynn down twice in the second round, once for a count of seven and again for a count of nine. While Flynn was the aggressor he landed few telling blows. Flynn finished strong, closing Dillon's eye in the eighth round with a right swing.

Demarest Defeated by Sutton in Third Game of Tournament

CHICAGO, March 3.—George Sutton tonight defeated Calvin Demarest, 500 to 358 in the third game of the five-man billiard tournament. The game was slow, running 23 innings. Sutton's high run was 58 and Demarest's best inning was 74. Sutton averaged 17 24-28 and Demarest 12 18-27. Sutton made 40 in his first inning and steadily increased his lead. Score: Sutton 40-6, 4, 37, 19, 17, 11, 0, 7, 0, 38, 27, 17, 0, 1, 11, 0, 0, 68, 4, 31, 35, 47, 13, 1, 22, 0, 49-500. Demarest—5, 8, 0-19, 0, 4, 3, 14, 1, 4, 26, 20, 5, 1, 35, 0, 9, 74, 2, 35, 5, 29, 10, 0, 48, 0, 10-358. Yamada defeated Sloan in the afternoon game 500 to 454. The victor's high runs were 54 and 86. His average was 13 18-27. Sloan's high runs were 59 and 47. His average was 12 22-36.

GOODWIN REPORTS TO STOVALL OF K. C. FEDS

KANSAS CITY, March 3.—Claire Goodwin, third baseman last season for the Los Angeles club of the Pacific Coast league, reported to Manager George Stovall of the Kansas City Federal league club today. Goodwin signed a contract with the Federals a few weeks ago.

PENN U. WILL PLAY TWO GAMES WITH ATHLETICS

PHILADELPHIA, March 3.—Two games with the Philadelphia American league team, the world's champions, are on the University of Pennsylvania baseball schedule tonight. The games with the Athletics will be played at Philadelphia on March 31 and April 1.

LOCAL PLAYER BEATS K. C. BILLIARD SHARK

In a closely contested match game at the Brunswick parlors last night Roy Harden, a local player, defeated Dick Norgrate of Kansas City at three-cushion billiards by a score of 50 to 48. The players are evenly matched and at no period of the game did the enthusiasm wane. Norgrate remained a few points in the lead until near the end of the game when Harden finished his score by a series of runs of three and four. A large crowd witnessed the contest.

AN EFFECTIVE LIQUOR LAW

Dayton's "Don't Sell To" List Proves Aid in Promoting Temperance. From the Ohio State Journal. They have down in Dayton a "Don't Sell To" list and a man gets on it by applying to the bureau of house commission and then the request is made and the name is added to the list. The saloons are advised not to sell the man any more liquor, under pain of having the license revoked. It is a good idea. Many men need a little outside boost to keep them from drinking. Why wouldn't it do for the liquor license board to put on the list every man found drunk on the streets every man who abuses his family, beats his wife or spends his wages on liquor? That would be a most effective temperance regulation and might serve to postpone the terrible fight the temperance forces are organizing against the brewers.

SCRAPPERS REFUSE TO USE OWN NAMES; QUEER MONICKERS

Cross Got Name Because He Was Surly; Long Nerves Made Short

Johnny Dundee Not Scotch, but Italian; Welsh's Name Thomas

NEW YORK, Mar 3.—It is considered awfully vulgar and common these days for prize fighting persons to wear the names given them at the baptismal fonts. In their efforts to be fashionable and pugilistic persons have so far obliterated their childhood names that fond and loving parents are able to identify their fighting offspring now solely through the medium of birthmarks, gold filled teeth or fondness for certain foods and liquors. Willie Ritchie, lightweight champion, isn't Ritchie Ritchie at all. He is Geary Steffens, the same being a German name, which gives rise to the common belief that Willie is English or Welsh. Willie was Geary until he substituted one p in for a fighter named Willie Richardson who was to take part in some preliminary scrap, but failed to be among those present. Geary, who hated the daylight out of his opponent and the crowd being unaware of the substitution, hurled loudly for Willie Richardson. Geary then decided to grab off the name for himself. Later he changed it to Ritchie, it being more poetic.

How Cross Was Named.

Louis Wallace—that's the name Leach Cross used to wear. But friends commenting upon his showing during his first ring engagement declared that he hung onto his opponent like a "leach" and he (Louis) seemed as "cross as a bear" whenever his opponent smote him upon the proboscis, and there you are Leach Cross.

When the late Stanley Ketchel made his first ring appearance the referee asked his name. "Stanislaus Kiecal" was the answer. The announcer tried to twist his tongue around it failed and turned to the fighter and snorted: "That ain't your name—your name is Stanley Ketchel, see?" Stanislaus "saw."

Freddie Welsh, the English lightweight, was Freddie Thomas during his school days. One day someone asked him if he was Welsh, meaning of Welsh descent. Freddie, he said, answered that "I am Welsh" and a sporting scribbler thought he meant that was his name.

Johnny Dundee, the New York scrapper, isn't Scotch, as his name would indicate. His right name is Joseph Carrara. When Johnny entered the fighting game and took unto himself "Scotty" Monteth, a Scot as manager, "Scotty's" first stunt was to change his protegee's name.

There is a bit of mystery as to what the family name of Gunboat Smith was. His first name is Edward. The Gunboat part came about through the dual fact that Smith was a sailor and that a sport writer once referred to him as "ramming" his opponent.

Jack Britton the Chicago battler, was Willie Breslin. Joe Rivers was Joseph Rieviera. Sailor Burke's right name is Charles Prasser.

O'Brien Was O'Hagan.

"Philadelphia Jack O'Brien's" family name was Joseph O'Hagan. Tommy Burns was Noah Brusso, when young Hugo Kelly used to make the Irish folks swell with pride over his achievements, but Hugo was a gay deceiver. He wasn't Irish. He was an Italian named Ego Michaeli. Kid McCoy was Norman Selby. Bill Lang, the great Australian scrapper was William Lantfranch.

Young Corbett, former lightweight champion was William Roth. "Fighting Dick" Hyland of San Francisco, carried around the name of William Uren when he was young. Frankie Conley the bantam is another who has deceived the Irish through his adopted name. His original handle was Francesco Conte, which is not Irish.

Jack Dillon of Indianapolis answered the roll call in other years every time some one called out "Ernest Cutler Rice." Wildcat Ferns is Clarence McCubbin—a very tame name. Charley White of Chicago, is Charles Anchowitz. Kid Williams, the Baltimore bantam was Jonathan Gutensow when he lived in Denmark. Eddie Campbell, the coast battler is Edward De Campuss. Harry Lewis was Henry Bestie man which he ought to have satisfied him for ring use but didn't.

Cutting Down Titles.

Knockout Brown's name is Valentine Braun. George Chly the new star in the pugilistic firmament was George Chylulonia. Tony Rose is old ward house used to barber people under his right name Anthony Rosellano. Charlie Miller the white hope, who came from San Francisco used to be a informant there under the name of J. J. Costimagna.

These are just a few of the legends of scrappers who have aped the chorus ladies in shutting off their own names to the public eyes and decorating themselves in new ones which sound so much nicer.

STREET CAR HOGS CLASSIFIED

From the Cleveland Plain Dealer. A certain number of trolley pests have been classified, labeled and pigeon-holed. First of all there was the end seat hog, an animal which has become extinct in Cleveland. Next came the stale cigar toter and he is unfortunately still with us. Public opinion in his case has been expressed so fre-

MAY SEEK RELEASE MEXICAN PRISONERS BY HABEAS CORPUS

Huerta Agent Contends U. S. Has No Right to Hold

EL PASO, Tex., March 3.—Asserting that there is no want of international law or treaty under which the 5000 Mexicans who fled to the United States after the battle of Ojinaga, and who are interned at Fort Bliss, can be held, representatives of the Huerta government here are preparing to institute habeas corpus proceedings to obtain their liberation. Harris Walthall and H. R. Gamble lawyers, are acting for the Huerta government under the immediate direction of Miguel E. Diebold, Mexican consul general at large.

"I assume the clause in which these Mexicans are being held is the one in The Hague treaty which states that if a group of belligerents take a country without warning with another taking avenge in a third, the third country must intern them for the period of the war," said Mr. Walthall.

Case Not Included.

The United States and Mexico are signatories to the treaty, but that instrument contains no reference to a situation like the present one. The conflict is internal. Mexico is not at war with an other country, and yet that was the only contingency foreseen by the authors of The Hague treaty.

"Before going into it, we will approach the state department on the subject. If we fail there, we will apply for a writ of habeas corpus for this right is suspended only in time of war or where martial law has been declared. Neither condition exists here."

The lawyer suggested that the case might result eventually in an amendment to The Hague treaty to cover the points raised.

Commissioners Still Inactive.

EL PASO, Tex., March 3.—The Benton investigation commission remained inactive today, while George C. Carruthers, special agent of the state department, was absent on a mission to General Carranza. Marion Letcher, consul at Chihuahua, now in this city, was notified to remain here until further notice.

Str Edward Grey's answer to a question in the house of commons about the Mexican situation was carefully read by officials and refugees here and in Juarez and provoked much discussion.

Nothing was learned as to the fate of Gustav Haack, the German-American, arrested as a spy by the rebels three weeks ago.

Another American Held.

JUAREZ, Mexico, March 3.—H. W. Dent an American has been a prisoner at Torreon for the past two months, according to Americans who arrived here from the south today.

Dent, a former superintendent of construction on the Torreon division of the Mexican National railway, is charged by the federals with being a rebel spy. Consul Haack is said to be trying to obtain his release.

The American had been having hides in various outfits and came to Torreon from Durango which is held by the rebels. To this fact he owes his arrest. He carried a large sum of money which is said to have been confiscated by his captors.

Federal Scouts Encountered.

CHIHUAHUA, Mexico, March 3.—A scouting detachment of federal troops from Torreon was encountered recently by a rebel force 30 miles northwest of Torreon and an inconsequential skirmish ensued, according to a report to Chihuahua today by General Francisco Villa. Villa's battle force was sent to feel out his strength and to ascertain the disposition of the rebels as far as possible.

Reviewed official reports made here to ascertain the whereabouts of the fate of Gustav Haack according to General Villa.

quently and so strongly that his number is no longer known. He is only now hope a vanishing species. Even now his appearance is less. He has a furtive look and seems to know how violently he is disliked.

Other classified porcine varieties are the woman who insists on a seat for her little darling for whom she has paid no fare the large heavy jawed man who spreads himself over double space the fellow who crosses his legs and acquires a free shine from passing skirts and overcoats and the unspeakable who has expectations.

There are also pests who do not cause actual physical discomfort. There is the way a young rogue who exits his arm around the back of the seat to intrude his complete possession of the silly girl who is riding with him. There are the women and a few men who talk not for the benefit of all but for the edification of all. And last of all his class of petty annoyances there is the whistler.

Street car whistlers should be recognized as a serious crime. There is no trolley law many porters' systems have been injured by the gratuitous noisemakers who pour their shrill or whistling sounds into the unwilling ears of their fellow captives. One who whistles on a street car is really a bad man an enemy to society. Who can approach his day's toil with noise and equanimity after having listened to a whistler on his way to work? The street car whistler should be suppressed with force and arms, if necessary for he needlessly and infernally makes the world less happy.

The Exclusive Ohio Magnette Brake

A WONDERFUL SAFEGUARD ON SLIPPERY STREETS

Probably the greatest fear of the average woman who drives an electric is that of skidding on a wet or slippery pavement in crowded traffic, when it is necessary to apply the brake suddenly.

The woman who drives an Ohio knows no such fear. For the exclusive Ohio magnette brake operating on the pressure of a button—instantly retards the car, even on the steepest slope. And the car cannot skid when it is applied.

In combination with the exclusive Ohio magnetic control and double drive this provides an operating arrangement that is at once the perfection of simplicity, safety and comfort.

CONDITION IMPROVED—The condition of Mrs. J. M. Curtis of 219 East Dale street, who has been seriously ill, is greatly improved.

BIRTH—Mr. and Mrs. L. R. Templeton of Lakewood, N. M., are the parents of a daughter born Thursday, February 26, according to word received by friends here.

NOT TWINS—Owing to the fact that the birth of a daughter to Mr. and Mrs. Allen Tudor Hall, 28 North Institute street, was reported twice to the board of health, it was erroneously stated in the published report of births for the month of February that Mrs. Hall was the mother of twins.

Y. M. C. A. Notes

An illustrated lecture on "Historic Bismarck" will be given Sunday afternoon at 3:30 in the Y. M. C. A. by Dr. Morrill, superintendent of Beth-El hospital. This is one of Dr. Morrill's best lectures and these slides are from photographs illustrating the historic spots around the old city. All the men of the city are invited.

The dates have been set for the annual circus and preparations are being made for the greatest entertainment of this class given in the association building. Work has already begun to make this a feature occasion. The circus this year will occur on May 15 and 16.

The members of the boys department are already planning for their summer camp to be given in June. Several of the enthusiastic fellows have already opened a bank account with the department in order to save up money for the outing.

Personal Mention

Thornton Brown of Cripple Creek is a guest at the Acacia.

L. J. Cahn of St. Joseph, Mo., is registered at the Antlers.

J. R. Mitchell of St. Louis is registered at the Alamo.

James King expects to leave today for a short trip to Chicago.

Mr. and Mrs. E. F. Long have gone to Diller, Neb., for a short visit.

Mr. and Mrs. Clayton Browne of Newburgh, N. Y., are guests at the Antlers.

J. C. Griffith, P. H. Yelton and A. J. Allen, all telephone men of Denver, are guests at the Acacia.

Mr. and Mrs. F. V. Glidden of San Francisco are visitors in the Pikea Peak region, staying at the Alamo.

Charles P. Bennett, who underwent an operation at Beth-El hospital several days ago, is rapidly recovering.

The condition of Henry C. Cassidy, who underwent an operation at St. Francis hospital Monday, is favorable and his recovery is expected.

M. I. Madden, chief clerk at the Acacia, and his bride are expected to arrive in Colorado Springs tomorrow and will be at home to their friends at the Acacia.

HEARINGS ON USE PUBLIC LANDS IN WEST BEGIN

WASHINGTON, March 3.—Hearings on pending bills relating to regulations and use of public lands in the west began today before the house public lands committee. Members of staff groups with measures to advocate, officials of the interior department, and nearly 50 witnesses from western states are to be heard, and the hearings probably will continue throughout the week.

Representative Kent of California today advocated his bill which would authorize the leasing of 320,000,000 acres of public domain for grazing purposes, while Representative Ferguson of New Mexico urged the committee to approve his measure to allow entrymen to acquire title to 640 acres of irrigated land, instead of from 160 to 320 acres.

CONFEREES AGREE ON ALL DIFFERENCES ALASKAN BILL

WASHINGTON, Mar. 3.—Senate and house conferees agreed late today on all differences over the Alaskan railroad bill and a report will be submitted for final action in both houses probably tomorrow. The senate conferees yielded to the house amendments providing that the road should be financed out of the treasury instead of by a bond issue and that the maximum of expense should be \$38,000,000 instead of \$40,000,000.

ARIZONA COTTON NETS GROWERS GOOD PROFIT

WASHINGTON, March 3.—A portion of the 2,100 bales of the 1913 crop of Arizona long staple cotton of the Egyptian type, developed by the department of agriculture, sold in Liverpool recently at 33 1/2 cents a pound, netting the Arizona growers 2 1/2 cents a pound at their shipping point in Salt river valley, it was announced today by Secretary Houston. This was taken to indicate that English spinners consider this cotton equal to the best grades produced in Egypt. A quantity sold to American spinners brought prices which make this a profitable crop for irrigated lands of the south-west.

SEN. CHAMBERLAN TO SEEK REELECTION

SALEM, Ore., Mar. 3.—United States Senator George E. Chamberlain, Democrat, will be a candidate for reelection this year. His declaration was filed today with the secretary of state.

The state of New York has just published a comprehensive report of its wood-using industries.
